PROFILE

I am an ambitious problem solver with a passion for web-development, and I would like to join a team of like-minded developers. I am thorough and precise in everything I do and have a keen interest in technology, web development, and user experience. As someone who takes responsibility for their personal development, I am continually evaluating and upgrading my skills. I am boundlessly creative and relentlessly attentive to detail. I am passionate about creating beautiful, attractive, intuitive, efficient and user-friendly websites.
